- Abandoned railroad

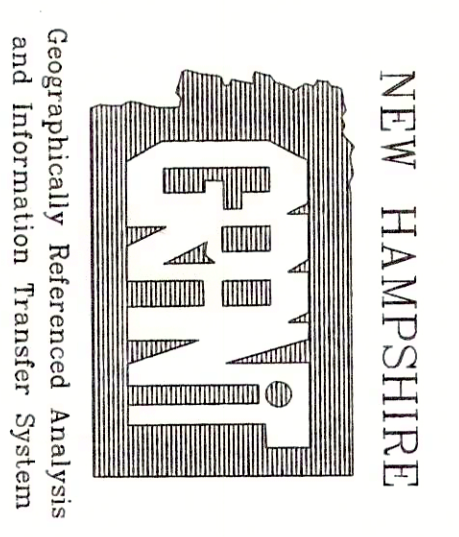

LOCATION OF MUNICIPALITY

Values of corner coordinates are in NH State Plane Feet, 1983 North American Datum. All base features are from 1:50,000 scale Digital Line Graphs, as archived in the OGI/NTI database. All base features distributed by Complex Systems Research, Inc. of Durham, NH. Water and sewer service information was supplied by the Water and/or Sewer departments of the surrounding municipalities. The polygon locations represent a general area within the town which provides sewer service as maintained in their GIS. The supplied data was digitized by ESRI, Inc. and is maintained in their GIS.
