COMMUNITY SERVICES DEPARTMENT

July 8, 2022

**Re: Dover Point Road Roundabout Project
Neighborhood Meeting**

Dear Resident,

The City of Dover is undertaking improvements to the intersection of Pointe Place and Sheffield Drive with Dover Point Road as part of the city's Capital Improvement Plan. Intersection improvements include the construction of a roundabout to accommodate increased traffic in the area. The city has obtained a consultant to design the Dover Point Road roundabout project to ensure the intersection improvements are safe and accessible for all users. Engineering design plans will be developed throughout 2022, with a potential construction start date in the spring of 2023.

We are in the preliminary design phase of this project and have planned a neighborhood meeting to gather insight and ideas from all residents and community members.

WHEN: Tuesday, August 2nd, 2022 at 6:00 p.m.

WHERE: Community Services building at 271 Mast Rd

All are encouraged to attend this meeting. A description of the proposed improvements will be given and time will be allotted for residents to provide input and ask questions of the Engineers and/or City officials.

A website for the project is in progress, which will have project updates; please continue to check the following for the project website: <https://www.dover.nh.gov/government/city-operations/community-services/current-projects/>.

Should you have any questions regarding the project, please contact Community Services at (603) 516-6450 or email me directly at j.semprini@dover.nh.gov. We are looking forward to working with you on this project.

Sincerely,

A handwritten signature in black ink, appearing to read 'Jillian Semprini', is written over a faint, larger version of the same signature.
