Sponge Water Bombs

Sponge Water Bombs

(credit: endlesslyinspired.com)

You will need:

kitchen sponges (you will need 3 sponges for each water bomb)
scissors
rubber bands

Directions:

1. Cut each sponge into fourths lengthwise. Cut 3 sponges cut into 12 strips for each water bomb.
2. Stack up the 12 strips. Lay 4 strips down, and stack another row on top, and then another row on top of that. Now, pinch the center together and wrap a rubber band as tightly as you can around the middle. Move the sponge strips around to make a pom-pom shape.

3. Take your sponge water bombs outside, dunk them in water, and have a sponge water bomb fight! Have fun!!!
