## Founding Fathers return to Dover (virtually) to read the Declaration of Independence

The COVID-19 pandemic has postponed or cancelled many events this summer, including the annual fireworks display in downtown Dover and the reading of the Declaration of Independence by the nation's Founding Fathers, as performed by the Garrison Players.

Although the popular reading of the Declaration of Independence won't return live to the steps of City Hall until next year, Mayor Robert Carrier will host a repeat screening

## **Celebrate 4th of July safely**

Police Chief William Breault and Fire Chief Paul Haas are reminding residents that consumer fireworks are not only dangerous, but also illegal to possess and discharge in the City of Dover.

According to city ordinances, "no person, firm, partnership or corporation shall offer for sale, expose for sale, sell at retail, purchase, possess, transport, use or explode any fireworks without a permit."

Permits in Dover are only granted for programs and displays approved by the Fire and Rescue Chief and the Police Chief using Class C fireworks. All displays must be conducted by a trained operator who holds a current license or State of New Hampshire certificate of competency.

With professional fireworks displays cancelled due to the COVID-19 coronavirus pandemic in many communities, including Dover, officials are reminding people that consumer fireworks are dangerous.

According to the National Fire Protection Association, fireworks started an estimated 19,500 fires in 2018, including 1,900 structure fires, 500 vehicle fires, and 17,100 outside and other fires. These fires caused five deaths, 46 civilian

In 2018, U.S. hospital emergency rooms treated an estimated 9,100 people for fireworks related injuries; half of those injuries were to the extremities and 34 percent were to the eye or other parts of the head. Children younger than 15 years of age accounted for more than one-third (36 percent) of the estimated 2018 injuries.

In addition to the threat of fire and injury, fireworks can also trigger episodes of post-traumatic stress disorder in some of our veterans and cause extreme distress for pets.

There are many safe alternatives to fireworks, including:

## State ends prohibition on evictions

Assistance available through  
Dover's Welfare office, CAP

A state emergency order prohibiting evictions ended July 1.

The state has authorized \$35 million from the CARES Act Coronavirus Relief Fund to support those in need of housing assistance as a result of COVID-19. Of the allocated \$35 million, \$20 million will be initially expended, with \$15 million being held in reserve, for rent stabilization and housing support. All initial disbursement of funds will be available through New Hampshire's five Community Action Program (CAP) agencies.

The program has two components: one-time assistance grants and a short-term rental assistance program.

- The one-time assistance grants cannot exceed \$5,000 and can be used to assist households with:
- Past-due rent from April 2020 forward for households that fell behind on rent due to either increased household expenses or lost household revenue as a result to COVID-19;
- Past-due housing/household related expenses that may impact an individual's/families' ability to remain housed; and/or
- Other housing related one-time expenses that if not paid impact the ability to maintain housing.
- The short-term rental assistance to maintain or secure permanent housing includes assistance for:
- Past-due rent that was not paid due to a COVID-19 related inability to pay and ongoing rental assistance on a short term basis. The rental assistance will decrease over time as households regain stability; or
- First month's rent and ongoing short-term rental assistance to assist with initial costs to facilitate the transition of working households from shelters into

permanent housing.

- Program payments will be made directly to the landlord or provider, and this program will end by Dec. 30, 2020.

The Housing Stabilization Fund application is now available through Community Action Partnership of Strafford County. For more information on the Housing Relief Program, including the application, visit <https://straffordcap.org/housing-relief-program/>.

Residential tenants unable to make rent payments, or who are falling behind, can reach out for assistance to:

## New assistance program available for self-employed businesses

Gov. Chris Sununu has authorized the allocation and expenditure of CARES Act Coronavirus Relief Funds ("flex funds") to provide emergency financial relief to support New Hampshire self-employed, for-profit businesses due to the economic disruption caused by COVID-19.

Applications for the program will be accepted from July 6 to July 17.

The Self Employed Livelihood Fund is only available to businesses that apply by July 17, 2020. Late or incomplete applications will not be accepted. All businesses who feel as though they are eligible should submit an application; however, only businesses that meet all of the Self Employed Livelihood Fund grant criteria are eligible to receive an award.

The Self Employed Livelihood Fund grant award amounts will be calculated similarly to the Main Street Relief Fund, with the maximum award amount a business can receive is \$50,000.

The State of New Hampshire is not directing businesses on how to spend the money. Businesses must demonstrate they have experienced or anticipate they will experience a financial loss due to COVID-19 in order to qualify for a Self Employed Livelihood Fund Grant. It is expected that businesses will use the funds to assist in covering their operational costs and legal obligations.

The Application must be completed and submitted by 4 p.m. on Friday, July 17, 2020, using only the Department of Revenue Administration (DRA) web portal. No hand-delivered or mailed paper copies will be accepted. It is recommended that applications be finalized as early as possible before the deadline. Businesses that require assistance from the DRA may contact the Call Center at (603) 230-5000, Option 0, from 8 a.m. to 4:30 p.m., Monday through Friday.

## Use cloth face coverings to help slow the spread of COVID-19

COVID-19 spreads mainly from person to person through respiratory droplets produced when an infected person coughs, sneezes, talks, or raises their voice (e.g., while shouting, chanting, or singing). These droplets can land in the mouths or noses of people who are nearby or possibly be inhaled into the lungs. Recent studies show that a significant portion of individuals with COVID-19 lack symptoms (are "asymptomatic") and that even those who eventually develop symptoms (are "pre-symptomatic") can transmit the virus to others before showing symptoms.

To reduce the spread of COVID-19, CDC recommends that people wear cloth face coverings in public settings when around people outside of their household, especially when other social distancing measures are difficult to maintain.

### **Why it is important to wear a cloth face covering**

Cloth face coverings may help prevent people who have COVID-19 from spreading the virus to others. Wearing a cloth face covering will help protect people around you, including those at higher risk of severe illness from COVID-19 and workers who frequently come into close contact with other people (e.g., in stores and restaurants). Cloth face coverings are most likely to reduce the spread of COVID-19 when they are widely used by people in public settings. The spread of COVID-19 can be reduced when cloth face coverings are used along with other preventive measures, including social distancing, frequent handwashing, and cleaning and disinfecting frequently touched surfaces.

The cloth face coverings recommended here are not surgical masks or respirators. Currently, those are critical supplies that should be reserved for healthcare workers and other first responders. Cloth face coverings are not personal protective equipment (PPE). They are not appropriate substitutes for PPE such as respirators (like N95 respirators) or medical facemasks (like surgical masks) in workplaces where respirators or facemasks are recommended or required to protect the wearer.

## Dover School District seeks parent input

In a recent letter to parents, Dover Schools Superintendent William Harbron said he is asking parents to provide feedback to the school district via an online survey as officials prepare for the 2020-2021 school year.

"With the onset of the COVID-19 pandemic, the District is confronted with a different planning scenario verses the typical summer planning and coordination," Harbron said. "The "new normal" has resulted in different and challenging way of thinking and planning. In order to allow for ample planning time, the District has been involved in the planning process since late April, with planning ongoing. The District is interested in your observations and feedback on the spring emergency remote learning as well as your insights pertaining to the planning for the new school year. Your input is needed."

In addition to work by staff to prepare for the next school year, Harbron said the district is awaiting additional state guidance in July and the results from several focus groups, including New Hampshire Listens and the Greater School Partnership.

Harbron said the survey is another important source of feedback that will help Dover's educators prepare for the coming school year.

**July 6, 1690** - Two companies under the Captains Floyd and Wiswall, who were scouting, discovered an Indian track, which they pursued till they came up with the enemy at Wheelwright's Pond, in Lee (then a part of Dover), where a bloody engagement ensued for some hours; in which Wiswall, his lieutenant, Flagg, and Sergeant Walker, with twelve more, were killed, and several wounded. It was not known how many of the enemy fell, as they always carried off their dead. Floyd maintained the fight after Wiswall's death, till his men, fatigued and wounded, drew off; which obliged him to follow. The enemy retreated at the same time; for when Captain Convers went to look after the wounded, he found seven alive, whom he brought in by sunrise the next morning, and then returned to bury the dead.

**July 5, 1792** - "We are informed from good authority that a canal is to be dug from Winnipesaukee pond to unite the waters with the Cochecho river - and that a subscription is filling for that purpose - and we hear that a gentleman of property in Portsmouth has offered 500 pounds towards the undertaking - and considering the rage for Canal cutting - it will be accomplished with ease - as 'tis said, that the water in the pond at the time of the great freshet, a few years since, overflowed, and found their way into Cochecho river." A correspondent of the Phoenix, in the issue of July 19, offers to "communicate" the waters of the pond and the Cochecho for one hundred dollars, though he says "to make it navigable for rafts of lumber, etc., from Merrymeeting river to Norway Plain in Rochester, it will undoubtedly cost several thousands."

**July 4, 1806** - The day was noticed with "uncommon festivity." "Its early dawn was liberally saluted by Capt. Henderson's company of Artillerists, which performed the occasional evolutions with great spirit and precision." At 11 o'clock the company collected at Mr. Ela's tavern "where the parched throat was agreeably slacked with cooling punch." An elegant dinner was prepared in "Union Hall upon the hill opposite the Great Falls."

——

**July 3, 1849** - The town of Rollinsford, formerly part of Dover, and afterwards of Somersworth, set off and incorporated.

——

**July 9, 1860** - Died, Captain Moses Paul, aged 63. He was Agent of the Cocheco Manufacturing Co. for nearly 30 years, and had been connected with the manufacturing business from its first introduction into the place. During this long period, the affairs of the Company were conducted by him with an energy and success which secured the approbation of its stockholders, while the care and attention which he ever bestowed upon the many thousands in its employ won for him their respect and esteem. Few manufacturing establishments in the country have been managed with more success, and in none has a better feeling more uniformly prevailed between the employers and the employed. Liberal and public spirited as a citizen - ever ready with his counsel and his means to advance the welfare of the community - the city of Dover owes much of its prosperity and many of its public improvements to his open hand and generous heart. Few men have enjoyed more deservedly a larger measure of the respect of their fellow citizens, and the death of none will be more deeply and generally regretted. (Dover Enquirer)

## Woodman Museum to hold dedication ceremony July 8 for John Parker Hale historic marker

The Woodman Museum will hold a dedication ceremony for a new State of New Hampshire Historic Marker, honoring Dover's Sen. John Parker Hale, on Wednesday, July 8, at 10 a.m. The ceremony will be held in front of the John Parker Hale House on the Woodman Museum campus, 182 Central Ave., Dover. The new historic marker is sponsored by the Woodman Museum.

Sen. John Parker Hale served as a lawyer and the a town moderator for Dover, a representative in the state Legislature, and the attorney for the district of NH at various times until his election to the House of Representatives in 1843. It was here

that Hale would begin to make a name for himself as a staunch abolitionist. His views would cost him his seat in the House and his place in the Democratic Party after he was the only Democrat to vote against the annexation of the slave-state of Texas. On March 4, 1847, Hale would be elected into the U.S. Senate as an independent Democrat.

Sen. Hale continued his battle against slavery throughout his appointment with such acts as introducing a resolution in 1848 that would have abolished slavery in Washington D.C. He would return to his former career as a lawyer to represent four men who were caught freeing a fugitive slave by the name of Frederick Wilkins imprisoned in Boston.

Later in 1852, Sen. Hale would lose his seat in the senate, but not before he was nominated as the presidential candidate for the abolitionist Free-Soil Party. He would run as a third-party candidate and lose against our 14th President and only President from New Hampshire, Franklin Peirce. Following this, Hale would move to New York City and again serve as a lawyer.

His best-known case would be in 1854, where he represented four abolitionist who obstructed the execution of fugitive slave Anthony Burns. Hale would return to the Senate, this time as a Republican, in 1855; again, continuing his fight against slavery as he argued against the existence of the institution in Kansas following the Kansas-Nebraska Act of 1854. Ten years later, Hale would be appointed by President Abraham Lincoln as the minister to Spain; one of the last appointments made by President Lincoln before his assassination.

Hale would serve this appointment for four years until he returned home to Dover, NH in 1870. His health would deteriorate after he returned home. Shortly after returning, he suffered a stroke. For the next three years, Hale's health would fluctuate. In July on 1873, Hale would fall and break and dislocate his right leg at the hip. The injury would lead to his death on Nov. 19, 1873. Hale is buried right down the road at Pine Hill Cemetery.

The Woodman Museum, in historic Dover, is considered one of New England's finest early 20th century style museums featuring natural History, local history, and art exhibits.

## State's Indoor Smoking Act amended to restrict vaping in public spaces

The New Hampshire Department of Health and Human Services (DHHS), Division of Public Health Services (DPHS), announces updated administrative rules related to the Indoor Smoking Act. The rules were amended as a result of legislative changes to include the use of e-cigarettes and devices in the Indoor Smoking Act's definition of smoking.

"Tobacco use is a risk factor for many different diseases, including heart disease, stroke, lung disease, and various types of cancers," said Dr. Sai Cherala, DPHS Bureau Chief of Population Health and Community Services. "It also puts people at higher risk for complications of COVID-19 because the disease creates negative outcomes for people with

compromised respiratory symptoms. About 16% of adults in New Hampshire report use of tobacco products and one of the things users of tobacco can do to improve their health is to quit."

The DHHS Tobacco Prevention and Cessation Program can help people stop using tobacco and, help workplaces implement changes to be in compliance with the Indoor Smoking Act.

House Bill 511, which became law in 2019, modified the definition for "smoking" in NH Revised Statutes Annotated (RSA) 155:65;XV, of the Indoor Smoking Act. Under the new law, smoking is defined as having a lit cigarette, pipe, or any device designed to produce the effect of smoking, including devices as defined in RSA 126-K:2, II-a. Devices may include, but are not limited to, hookahs, e-cigarettes, e-cigars, e-pipes, e-hookahs, and vape pens.

The Indoor Smoking Act clarifies that all tobacco products are prohibited in enclosed workplaces and enclosed places accessible to the public. Specific businesses that might be impacted by the change include restaurants, bars, and vape shops.

The updated rules allow communities across the state to strengthen their efforts to regulate e-cigarette/vaping devices in public places. For more information, contact the NH Tobacco Prevention and Cessation Program at [TPCP@dhhs.nh.gov](mailto:TPCP@dhhs.nh.gov) or (603) 271-6891.
