Hi guys,

Because you sent me this email, I just went back to Mike's email from last week. Perhaps a call would be good since Mike can explain what he did.

Otherwise, I have been hammered by some other work that I am trying to complete, and have not gotten back to GB. I will need to block out some time next week.

I will be at the NEERS meeting in Portsmouth, NH starting Thursday.

I have time tomorrow. How about mid-morning, or mid-afternoon. Go ahead and schedule a call.

Best,

Jim

Subject: Call tomorrow Morning?

Hi Jim –

Wondering if you have some time tomorrow morning to talk with Michael and I. As you know from Michael previous e-mail we're exploring the use of a load based approach for the estuary as opposed to a concentration based approach and wanted to get your thoughts on the thresholds you developed with Rego and how we could apply them to the Great Bay Estuary.

Thanks,

Dan
