Subject: Time to talk about Great Bay
Date: Thursday, March 08, 2018 1:11:28 PM

Hi Jim:

Michael Cobb and I are working on compiling the data that we have for the Great Bay Estuary and we were wondering if you were around next Wednesday (3/14) to talk for a bit. We've also been reviewing the nitrogen threshold loading article that you worked on with Steven Rego and its potential applicability to Great Bay. We are both free all day except from 11:00 – 12:00.

Thanks,

Dan
