Visioning

A City with an emerging urban vibrancy guided by a small town sense of community.

- When Dover celebrates its 400th anniversary in 2023 it will be a dynamic community with an outstanding quality of life because it has achieved the following interconnected characteristics:
Vision Elements

- Safe family friendly neighborhoods, a strong sense of community and an excellent school system,
- The historic downtown is alive and vibrant,
- Government and schools are run effectively and efficiently with full transparency,
- Multiple transportation modes present,
- Traffic volumes/speeds are well managed,
- Dover attracts and retains stable, well-paying jobs,
- Rural character is preserved and infill development is encouraged,
- Enhanced environmental quality in all the City’s activities.
Do’s and Don’ts

- A Master Plan is:
  - The community’s vision
  - A living/dynamic document
  - A tool for managing growth
  - A guide for capital spending
  - The City’s strategic plan

- A Master Plan is not:
  - Regulations
  - A static document
  - A burden
  - Funding
  - A place holder

Executive Summary

LAND USE ANALYSIS RECOMMENDATIONS
Adopted February 24, 2015

Themes and Vision:
Included in the 2012 Vision chapter was an implementation matrix suggesting how Vision elements should be reviewed by the community within the Land Use chapter of the Master Plan. This implementation matrix was used to frame the discussion of this chapter. To encourage neighborhoods to build a sense of community:

- Promoting and supporting the city’s diversity of ages, incomes and origins.
- Keeping Dover an affordable place to live.
- Maintaining Dover’s state of the art medical facilities and its status as a regional medical center.
- Facilitating a balanced supply of safe and attractive housing for individuals and families of all incomes.
- Downtown — A vibrant and inviting family friendly, pet friendly, walkable focal point for the entire community.
- Preserve natural resources: water, watershed, air, farmland (aquifer conservation and filtration), and a working waterfront
- High quality, low impact growth and development that preserves the city’s more rural areas and focuses commercial activity in and around the urban core.
- Mixed use development wherever appropriate.
- Planning and development regulations include architectural standards that preserve and safeguard the historic and architectural quality of Dover’s historic buildings, downtown and neighborhoods.
- Underground utilities in new construction wherever it is feasible.
- Growing the leading edge and innovative economic base and continuing to provide more and better paying jobs including opportunities in the science, high tech and “green industry” fields.
- The development of new business parks consistent with the Dover 2025 vision.
