Ok that's good to know for the future. I didn't know if there was anything preventing us from having an imbalance in the numbers of prisoners to officers in the booking room in that situation...it was complicated by the fact that all 3 wanted to blow on the intox... observations periods etc . And a heads up as well that one of the three was Frank Santin's daughter's significant other/father of her child. He was not cooperative and ended up being transported to the jail without booking..he and the daughter called today and spoke to Brad. Frank was fine, the daughter not so much.

Just an FYI, Last night at around 0215 we had all three third shift guys that were working get DWIs at the same time. As that was happening, we got a call for a 3 domestics, one of which was a violation of a DVP and another one with 631. I ended up taking one myself, luckily Howard and Mitrushi were late leaving HQ so I sent them back out and then called for SP to assist with the third domestic. Khalsa had just left HQ a few min prior so I called for him to return to work and he ended up going to a domestic with a trooper. SOOOO this long email is to tell you that I called for SP to assist because I had no guys left and pending priority calls.
