

At Home Creation Station

Bow-Tie Pasta Butterflies

You will need:

bow-tie pasta
chalk markers or paint
1 sheet of card stock or sturdy paper
glue
black sharpie or pen

Directions:

1. Start by painting your bow-tie pasta with bright fun colors and let dry. Chalk markers dry pretty fast so they are perfect for this craft, but, you can also paint them with tempera paint or use regular markers, if you wish.
2. For the grass, carefully cut the pasta in half and paint them green.
3. Glue the grass and your butterflies to a piece of card stock or sturdy paper.
4. Add sharpie antennas to your butterflies, and dots behind them, so it looks like they're flying. Have fun!
