

# At Home Creation Station

## Make an Egg Carton Caterpillar

### **You will need:**

- 1 row of egg cups from a cardboard egg carton
- Paint (and paint brush) or markers
- 2 wiggly eyes (or buttons or pieces of paper)
- 2 pieces of pipe cleaner (any color)
- Scissors

### **Directions:**

1. Cut the lid of the egg carton off and snip straight down the carton lengthways to give yourself 2 caterpillars waiting for someone to beautify them!
2. With scissors, trim the edges to neaten them for a nice caterpillar shape.
3. Use paint, or markers to decorate your caterpillar to your heart's desire!
4. After your caterpillar dries, use glue to attach the googly eyes (or whatever you are using for eyes).
5. Poke two holes in the top of the caterpillars head and insert each pipe cleaner antennae.
6. Have fun and enjoy your new creepy crawly caterpillar friend!
