

At Home Creation Station

Newspaper Shark Craft

You will need:

piece of newspaper
small pieces of black, white, and dark blue paper (or green or purple)
light blue back ground paper (or any color you want to use)
wiggly eyes
scissors and glue

Directions:

1. Start by cutting out your shark head shape from your newspaper. You can make it skinny or wide, short or tall, however you choose. Glue your shark head onto your light blue back ground.
2. Cut out ocean waves from your dark blue paper and glue them at the bottom of your light blue paper, underneath your shark face.
3. Cut out a shark mouth from black paper and teeth from white paper. Glue them onto your shark face, and then glue on your wiggly eyes. (You can make eyes from your black and white paper if you don't have wiggly eyes.) Have fun!
