

# At Home Creation Station - SRP 2020 - Week 1

## Newspaper Unicorn

### **Supplies needed:**

1 piece of cardstock or construction paper (any color)  
newspaper  
glue/ scissors/ pencil  
yarn (optional)  
googly eye (optional)  
watercolor paints (optional)

### **Directions:**

1. Draw a horse/unicorn head outline on a piece of newspaper and cut along the border. Glue the head onto the cardstock or construction paper.
2. Use watercolor paint, if you have some, to color a sheet of newspaper and let it dry.
3. Once the newspaper has dried, cut out a triangular horn shape. Then, cut the remaining painted newspaper into a number of short strips and fold in an 'accordion' style to add texture to the mane of the unicorn.
4. Use glue to attach the unicorn horn and the paper mane.
5. Cut up a few strips of colorful yarn, if you have some, and position them in between the accordion newspaper folds to create a full, flowing colorful mane.
6. Complete the unicorn by adding facial features (big googly eye, cute smile, and a small nostril). Have fun!
