## Waterfront project, park, before Planning Board Tuesday

The long-planned waterfront development takes another step towards reality on Tuesday, June 14, when the Planning Board is set to hear and potentially approve applications from the developer and the City of Dover to develop city-owned land on River Street.

The developer, Cathartes, received the conditional endorsement of the Technical Review Committee (TRC) for its planned project

on May 5. It also received the endorsement from the Cochecho Waterfront Development Advisory Committee (CWDAC) on May 17. The City of Dover's waterfront park and public improvements also received TRC and CWDAC endorsements.

In its application, the city seeks to subdivide the land to create three new lots and a right of way. It also seeks a conditional use permit and site review. Cathartes' application through its business entity, CPI Management, LLC, also seeks conditional use permits and site review. With the conditional use permits, the developer seeks to increase the allowable height and density of its planned buildings. The subdivision of land allows the city to sell the land for private development to Cathartes as stipulated in the land disposition and development agreement between the developer and the city.

The Planning Board will hold public hearings on the city's and developer's applications at the meeting.

The meeting begins at 7 p.m. in City Hall's Council Chambers. It will be televised on Channel 22 and online at [dovernh.viebit.com](http://dovernh.viebit.com), where it will also be available for on-demand viewing. [Click here](#) for the complete agenda and materials.

## Self-testing at home or anywhere

When to take a self-test:

This is especially important before gathering with individuals at risk of severe disease, older adults, those who are immunocompromised, or people who are not [up to date on their COVID-19 vaccines](#), including children who cannot get vaccinated yet.

Learn what to do if you [test positive or test negative](#).
