Recycling Center hours:

Tuesday, Thursday, Saturday:

General Election is Tuesday, Nov. 3

Polls open from 7 a.m. to 7 p.m.

Dover voters will head to the polls Tuesday, Nov. 3, for the 2026 New Hampshire general election. Polls in all six of the city's wards will be open from 7 a.m. to 7 p.m.

Voters will cast ballots for federal, state and county offices, including governor, U.S. senator, U.S. representative, executive councilor, state senator, state representatives, sheriff, county attorney, county treasurer, register of deeds, register of probate and county commissioner.

The two-sided ballot also includes two questions.

The first is a proposed amendment to the New Hampshire Constitution that would eliminate the elected office of register of probate. The amendment would remove references to the office from the state constitution.

The second question asks Dover voters whether to establish limits on property tax growth for the Dover School District under a state law enacted earlier this year. If approved, the limits would apply for two years and restrict growth in the local property tax levy based on inflation and new construction, while also limiting spending by the school district's central administrative office. The measure includes exemptions for bonded capital costs and provisions allowing

Sunday:
8:30 a.m. to 12:30 p.m.

the limits to be overridden. Approval requires a three-fifths majority.

Polling locations

Dover has six polling places. Voters must cast their ballots in the ward where they reside.

- Ward 1: Frances G. Hopkins Elementary School, 78 Horne St.
- Ward 2: Dover Ice Arena, 110 Portland Ave.
- Ward 3: Woodman Park Elementary School, 11 Towle Ave.
- Ward 4: Garrison Elementary School, 50 Garrison Road
- Ward 5: Dover Middle School, 16 Daley Drive
- Ward 6: Hellenic Center, 219 Long Hill Road

More information

Residents who are not registered to vote may register at their polling place on Election Day.

Absentee ballots are available through the City Clerk's Office. Completed absentee ballots must be returned in person by 5 p.m. Monday, Nov. 2, or received by mail by 5 p.m. on Election Day.

The city's 2026 General Election information page includes sample ballots for all six wards, information about the two ballot questions, absentee voting instructions, polling locations, and a link to an interactive ward map.

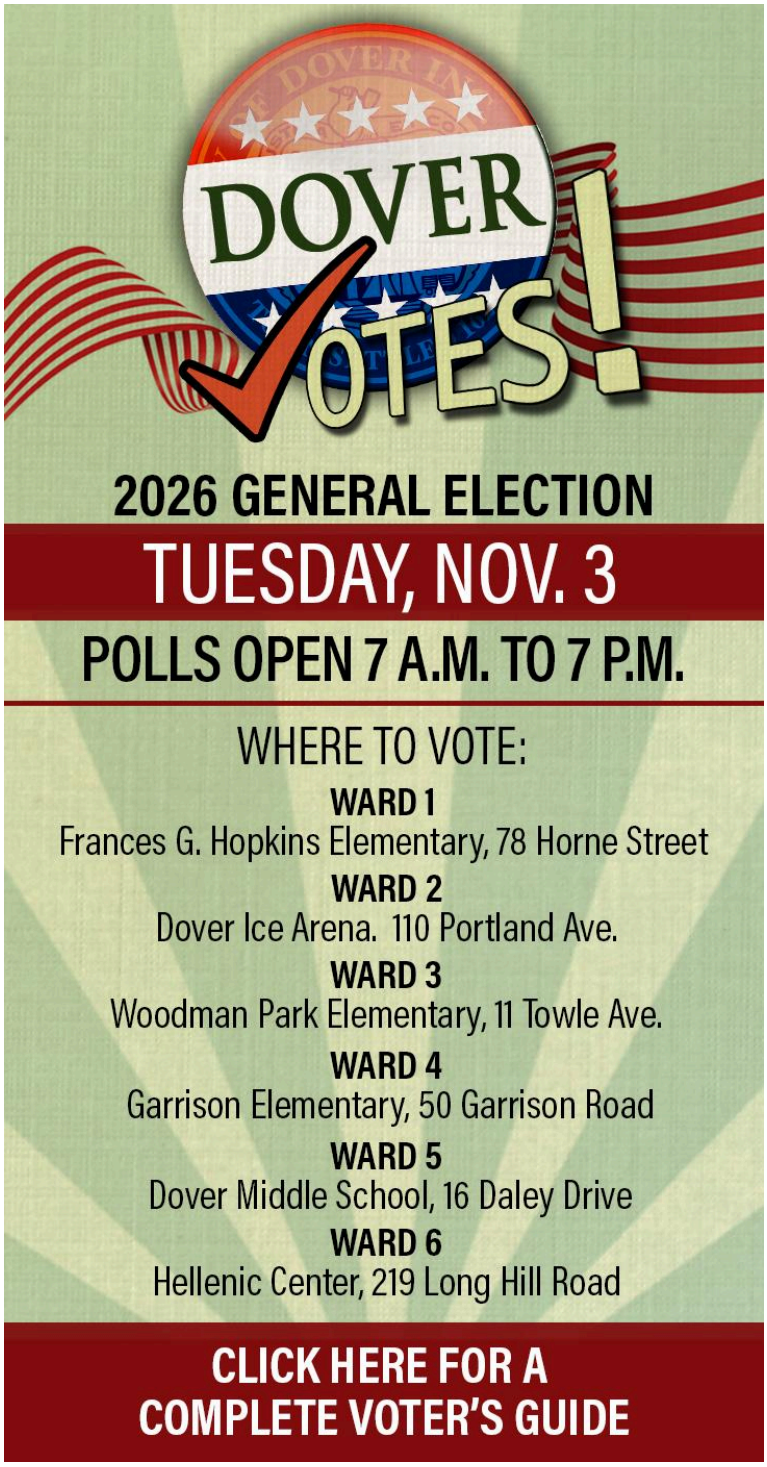

For additional information or assistance determining a polling location, contact the City Clerk's Office at 603-516-6018.

COAST to offer free rides to the polls on Election Day

COAST will offer free rides to anyone on their way to vote in the Elections on Tuesday, Nov. 3. While the COAST public transit system does not provide transportation to each individual polling station directly, COAST said the goal is to encourage voters to get to the polls and participate in voting by eliminating the barrier of transportation costs.

All passengers need to do is tell their driver that they are on their way to vote, or on the way back from voting, and they will not be charged for the ride. COAST will be following an honor system.

Council to hold workshop on proposed Capital Improvements Program

The City Council will hold a workshop session on Wednesday, Nov. 4, starting at 7 p.m., to discuss the proposed Capital Improvements Program for fiscal years 2028-2033.

The Council will hold public hearings on the three resolutions that encompass the CIP at its Wednesday, Nov. 18 meeting: approving the six-year planning document; approving capital reserve fund appropriations for FY28 non-debt-financed projects; and authorizing appropriation and bonding for FY28 debt-financed projects. The City Council is expected to vote on the three resolutions at its Wednesday, Dec. 9 meeting.

The first-year projects and appropriation will then be incorporated into the FY28 municipal budget, which will be introduced to the City Council in February 2027.

The Planning Board voted unanimously to recommend the CIP's passage to the City Council at its Oct. 27 meeting.

Visit the city's Capital Improvement Program webpage for more information and links to the document.

Council continues curbside trash collection ordinance revisions to Nov. 18

Following Wednesday's workshop session on the topic, the City Council postponed action on proposed ordinance revisions for the upcoming transition to curbside toter collection to its meeting on Wednesday, Nov. 18.

Council members are seeking an application process that would allow housing units excluded from the toter collection system to participate if they meet certain criteria. As currently drafted, the proposed ordinance would extend curbside collection to residential properties with three units or fewer on public streets and approved private drives.

At the Oct. 28 workshop, Deputy Community Services Director Ken Mavrogeorge discussed the challenges of servicing multi-unit residential homes, chief among them the amount of street space available. Each approved residential unit would receive two toters: one for trash and one for recycling. Because the toters will be emptied into the truck via a robotic arm, they need to be spaced appropriately to allow the arms to maneuver. He noted that some four-unit properties would have enough curb space for eight toters, while others would not.

The transition to toters will occur on July 1, 2027, when the city will also end the current pay-as-you-throw bag system. The costs for the toter collection would be paid through the city's General Fund.

Watch the workshop recording.

End of daylight saving time serves as fire safety reminder

As clocks "fall back" at 2 a.m. on Sunday, Nov. 1, Dover Fire and Rescue encourages residents to use the end of daylight saving time to prioritize fire safety. The annual time change provides a convenient reminder to test smoke and carbon monoxide alarms and replace their batteries.

"Taking a few minutes this weekend to check your smoke and carbon monoxide alarms can truly save lives," Dover Fire Chief Brendan Driscoll said. "It's a small habit, but making sure your batteries are fresh is one of the easiest and most effective ways to protect your family and your home."

Dover Fire and Rescue reminds residents that nearly 80% of home fire fatalities involving children occur in properties without functioning smoke alarms.

"We could prevent so many of these tragedies if people simply tested their alarms and swapped out the batteries," Driscoll said. "Even if your home has hardwired alarms, they still rely on battery backups during unexpected power outages. Don't overlook them."

The National Fire Protection Association (NFPA) reports that 71% of smoke alarm failures are caused by missing, disconnected or dead batteries. Simple actions like testing alarms monthly, replacing batteries at least once a year and encouraging friends, family and neighbors to do the same can drastically reduce preventable injuries and fatalities.

"The risk of a fatal fire peaks overnight between 11 p.m. and 7 a.m. while most people are asleep," Driscoll noted. "A working alarm provides the crucial early warning needed to escape safely, especially for children and older adults who might need more time to evacuate."

According to the NFPA, having working smoke alarms cuts the risk of dying in a home fire by 60%.

Fire officials also advise residents to ensure alarms are properly placed inside every bedroom, outside each separate sleeping area and on every level of the home. Because the sensors degrade over time, the entire smoke alarm unit should be replaced every 10 years. Carbon monoxide detectors typically need replacing every five to seven years, depending on the manufacturer.

For additional information about smoke and carbon monoxide alarms, visit the U.S. Fire Administration website at usfa.fema.gov or contact Dover Fire and Rescue at 603-516-6148.

Fall leaf collection begins Nov. 2

The City of Dover 2026 fall leaf collection will begin Monday, Nov. 2 and continue for six weeks, Monday through Friday, through Dec. 11.

Bagged leaves will be picked up by Waste Management on the same scheduled day as curbside trash and recycling. Please note that pickup is delayed by one day on Thursday, Nov. 26 and Friday, Nov. 27, due to the Thanksgiving holiday.

Leaves must be placed curbside in biodegradable paper leaf bags. No brush will be accepted. Paper bags can be purchased at local hardware or home improvement stores.

Grass clippings, leaves, brush and yard waste are also accepted at the Recycling Center during regular operating hours, Tuesday, Thursday and Saturday, 8:30 a.m. to 3:30 p.m., and on Sundays, 8:30 a.m. to 12:30 p.m. from Sunday, Nov. 1 through Sunday, Dec. 6.

For more information, contact the Community Services Department at 603-516-6450.

Volunteer boards help keep Dover vibrant

The City of Dover is a vibrant community due in large part to the significant energy and talent of citizen participation on the city's many boards, committees, and commissions. Input from these boards, committees, and commissions helps guide Dover's policy decisions.

Catch basin cleaning ongoing

A city contractor will continue cleaning about 1,500 stormwater catch basins in the northern section of the city. The work is expected to be finished by Dec. 31.

When cleaning a catch basin, the contractor removes all water and debris and provides a basic condition assessment after cleaning.

Catch basins are required to be cleaned every two years as part of the federally issued municipal separate storm sewer system (MS4) general permit.

For more information, contact Community Services at 603-516-6450.

Sunday hours at the Recycling Center begin this week

The City of Dover Recycling Center will be open additional hours on Sundays, from 8:30 a.m. to 12:30 p.m., from Sunday, Nov. 1 through Sunday, Dec. 6.

The Recycling Center's regular hours are Tuesday, Thursday and Saturday, 8:30 a.m. to 3:30 p.m.

Truck detour remains in effect for Central Avenue water work

Mount Vernon Street detour remains for passenger vehicles

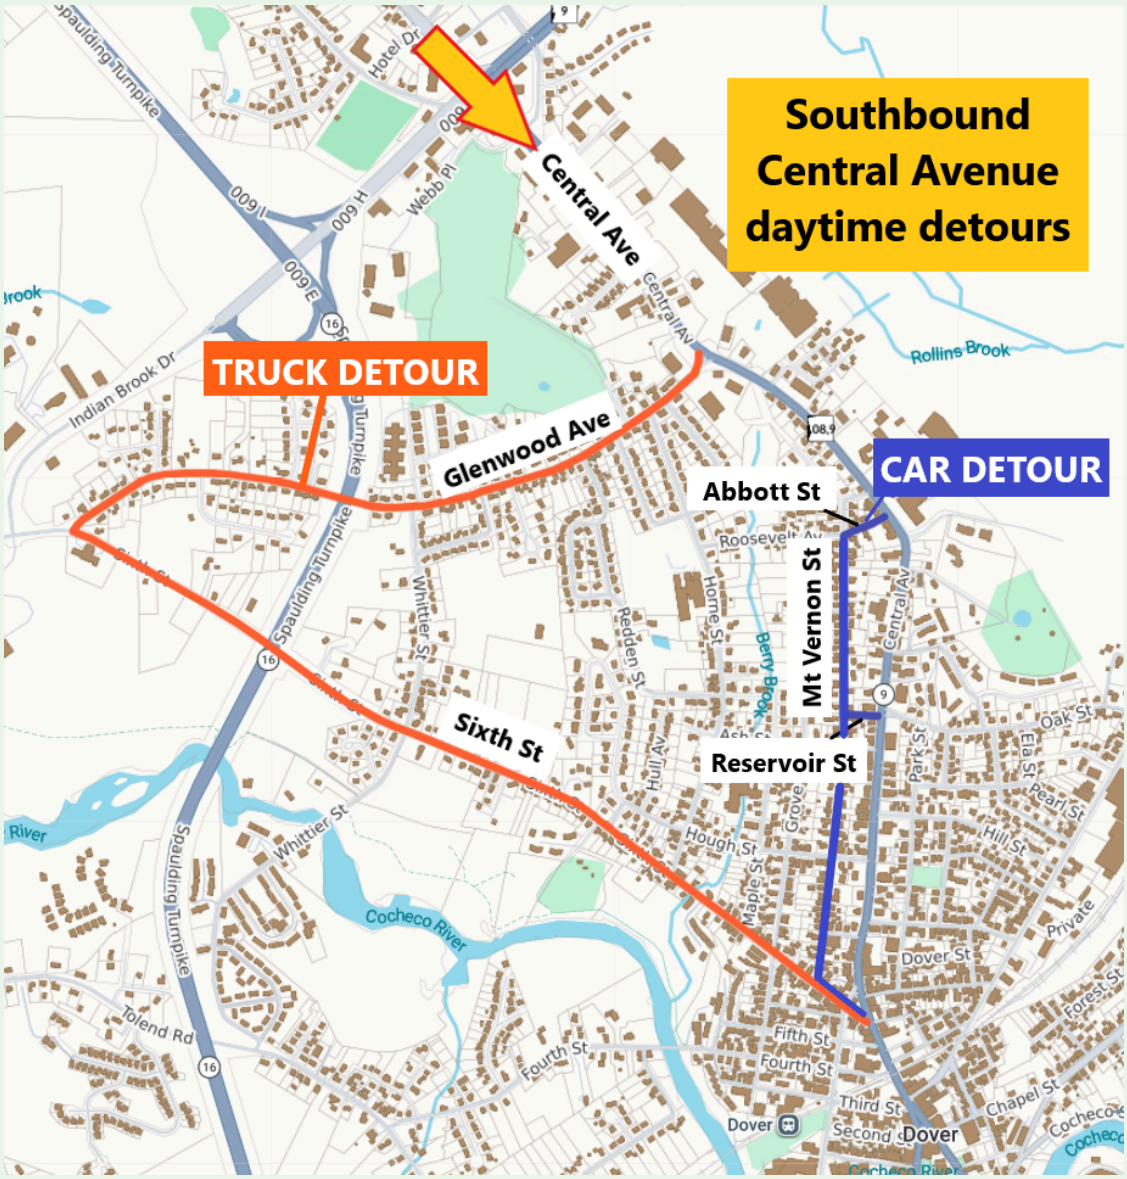

Southbound vehicle traffic will be detoured during construction hours around the Central Avenue water main work as it progresses from Oak Street to Abbey Sawyer Memorial Drive. Commercial truck traffic will be detoured via Glenwood Avenue and Sixth Street. Passenger vehicle traffic will be detoured via Abbott Street, Mount Vernon Street, and Reservoir Street.

The detour is needed to ensure the timely passage of emergency vehicles in the congested area of Central Avenue and Oak Street. It is in effect when work is ongoing, typically Monday through Friday from 7 a.m. to 5 p.m.

The detour will remain in effect until water main work moves onto Abbey Sawyer Memorial Drive, which the contractor expects to occur by Thanksgiving.

The work is part of the Central Avenue Urban Core Water Improvements to replace a critical water transmission line on Central Avenue from Broadway to Abbey Sawyer Memorial Drive, and on Abbey Sawyer Memorial Drive to the water tank. The contractor for the project is S.U.R. Construction, Inc., of Rochester.

For more information, contact Community Services at 603-516-6450.

Garrison Hill to be closed to vehicle traffic during water main work

Abbey Sawyer Memorial Drive will be closed to vehicle traffic as work crews begin installing the new water main from Central Avenue to the top of Garrison Hill. Access will return during off hours and weekends.

Access will remain for local traffic, though delays should be expected.

For more information, contact Community Services at 603-516-6450.

Rollins Road, Highland Avenue water main work continues

The city contractor has installed a new water main on Rollins Road and Highland Avenue. Next week, following testing of the new main, the contractor will begin connecting properties to the new water main and paving trenches.

When work occurs on Rollins Road, motorists should anticipate a lane closure between Oak Street and Highland Avenue. Flaggers will alternate traffic. Delays should be expected.

For more information, contact Community Services at 603-516-6450.

Daily lane closures on Spaulding Turnpike southbound continue through Nov. 16

Daily lane closures are in effect on the southbound Spaulding Turnpike in Dover as work continues to demolish the General Sullivan Bridge.

Weather permitting, lane closures will be in effect from 9 a.m. to 3 p.m. between mile markers 4.2 and 3.6. The closures are expected to continue through approximately Monday, Nov. 16. The lane closures will allow crews to remove the center span of the General Sullivan Bridge.

The work is part of the ongoing demolition of the General Sullivan Bridge between Dover and Newington. Reed & Reed Inc. of Woolwich, Maine, is the general contractor for the $28.4 million project, which is scheduled for completion in summer 2027.

Dover Download 'Question of the Week'

We want to hear from you. In each edition of Dover Download, we're looking for your response to our question of the week. A new poll will appear each week in Dover Download, along with the results for the previous week. Participating is easy. Click on the link below to cast your vote.

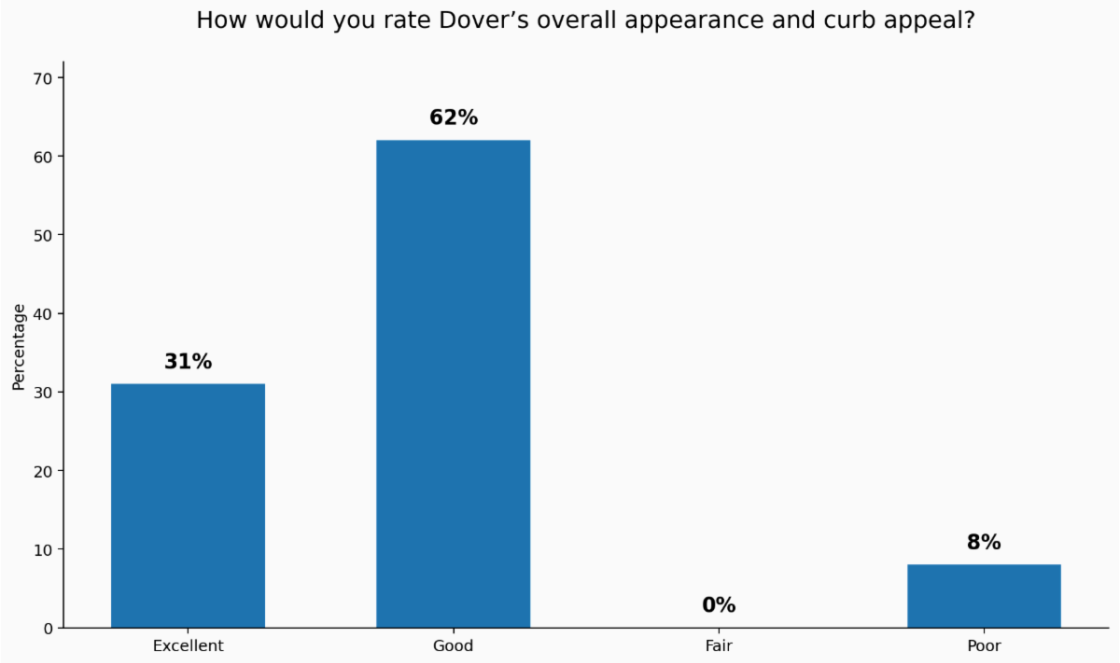

This week's question:

"Have you ever attended a business networking event in Dover?"

Let us know.

Please note that if you don't already have an account with Polco, the city's polling system, you will be asked to create one. Responses are anonymous.

Here are the results from last week's poll:

The following events are from various historical records, sources, and texts about the history of Dover.

For more on the history of Dover, visit the Dover Public Library, Locust Street, and the Woodman Museum on Central Avenue. The Public Library also maintains an online collection of historical information.

Nov. 6, 1818 — Capt. John Riley died on this day at age 66 after falling from the staging of a ship being built in Dover. Just two days earlier, both his thighs were broken during an accident on the ship.

Nov. 3, 1828 — The results from Dover in the Presidential election were tallied, with 505 votes cast for John Quincy Adams and 322 votes for Andrew Jackson. Adams, who was serving as the sixth president of the United States at that time, would be succeeded by Andrew Jackson as a result of the election. Jackson became the seventh President of the nation in March of 1829.

City urges water conservation amid ongoing drought conditions

The City of Dover urges residents and businesses to voluntary reduce water consumption due to the ongoing regional drought conditions. These voluntary measures will remain in place until drought conditions improve.

While many communities across the region implemented mandatory water restrictions, the city anticipates voluntary water use reductions will be sufficient, said Community Services Director John Storer, who oversees the city's water system.

Current aquifer levels were discussed at the City Council's workshop on the city's water utility system on Wednesday, Sept. 2, 2026. The Dover Utilities Commission discussed

groundwater levels and drought conditions at its Sept. 21 and Oct. 19 meetings.

The region has experienced drought conditions since July 8, 2025, when the U.S. Drought Monitor classified the region to be abnormally dry. Conditions worsened to moderate drought levels on Aug. 12, 2025, followed by severe drought conditions starting on Sept. 16, 2026. Severe drought conditions persisted through June 30, 2026, when conditions were upgraded to moderate drought conditions, where it has remained.

Ways to conserve water

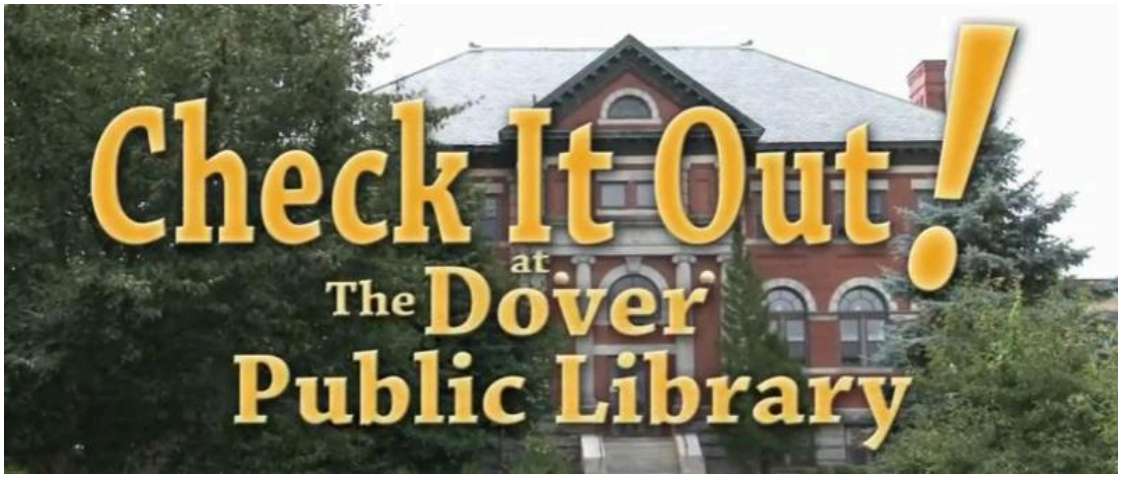

The public can conserve water in many ways:

- Limit outdoor watering. According to the EPA, irrigation accounts for 30% of residential water use nationally — about 9 billion gallons per day. Avoid irrigating during the day, especially the hottest parts of the day when evaporation is highest.
- Utilize commercial car washes. They are more efficient with water and don't dump dirty water into the storm drains.
- Fixing leaky plumbing conserves water and saves money. Leaking faucets and toilets can waste thousands of gallons a year, leading to increased water bills.
- Be mindful of indoor water use. Take shorter showers, turn off the water when brushing teeth, and run dishwashers and washing machines only when full.

Find additional resources at the U.S. Environmental Protection Agency's WaterSense online resource.

Track water use, get leak alerts with 'Eye On Water'

The city's public water customers can monitor their water usage with the Eye On Water online portal and mobile app. The system helps track daily, monthly, and yearly consumption; users can also sign up to receive alerts for potential leaks. Customers will need their account number from their water bill. For assistance, contact the Water and Sewer Billing Office at 603-516-6028.

Blood donations saves lives

Every two seconds someone in the U.S. needs blood. It is essential for surgeries, cancer treatment, chronic illnesses, and traumatic injuries. Whether a patient receives whole blood, red cells, platelets or plasma, this lifesaving care starts with one person making a generous donation.

Thousands of patients rely on lifesaving blood donations every day. The average red blood cell transfusion is approximately 3 units; a single car accident victim can require as many as 100 units of blood. The need for blood is constant.

Schedule a blood donation appointment through the Red Cross Blood Donor App, visiting RedCrossBlood.org, or calling 1-800-RED CROSS (1-800-733-2767). Learn more about the donation process.
